ALPHA DOOR HANDLE

The Alpha door handle has been designed to complement the Alpha espangolette casement window handles with good looks, long life and a comfortable feel in mind.

- Available as Lever/Lever or Lever/Pad
- Two backplate designs and sprung/unsprung options to suit most locks
- Five colours available to match the Alpha suite of window and door furniture
- Standard finishes are white, PVD gold, polished chrome, satin, Enduro steel and black.
- Cylinder hole flange gives additional security and eliminates gap around cylinder cut out.

LOCK LOCK SECURITY DOOR HANDLE

For added protection and increased security for your doors, Climatec have added the Lock Lock security handle to their hardware collection.

The Lock Lock security handle's patented lock-block stops the spindle turning, therefore using this security handle means the home is "locked and locked"; double the protection for the homeowner. The handle must be turned up and the hooks engaged before the switch can be operated. A clever switch on the handle also removes the need for a key on the inside and furthermore a luminous indicator lets you know that the door is indeed securely locked.

The Lock Lock fits all PVC and composite doors and any other door with a standard 122mm or 211mm handle set.

- Patented Design
- The handle can be retro-fitted
- Available as Lever/Lever or Lever/Pad
- Two backplate lengths to suit most locks
- Five colours available - White, Gold, Chrome, Stainless Steel and Black
- Option available for external handle without a cylinder for doors that are never locked from the outside.
