RESIDENTIAL DOOR HINGES

Butt Hinge

The Butt Hinge is a self-contained hinge for aluminium residential doors.

The hinge is supplied ready to fit in one piece, as opposed to being a lift-off hinge or requiring a spindle to be inserted to attach the sash component.

The hinge will self-locate onto the profile without the need of a fitting jig.

Designed for use on doors weighing up to 90KG (using three hinges). Alu-tec fit four hinges as standard.

Available in White, Black, Anthracite Grey and Silver finishes.

For further assistance, call 01702 899440
