

## OPTIO BSC94 IN-LINE SLIDING WINDOW & DOOR SYSTEM

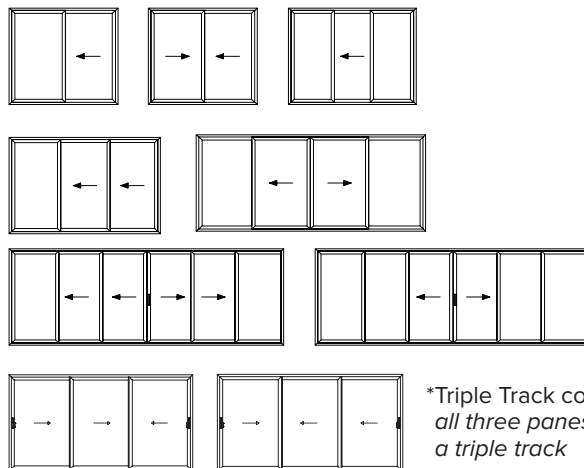

The AluK BSC94 In-line sliding door and window system is manufactured to the highest standards and offers multiple sliding configurations. The stunning design, combined with high performance provides a versatile door and window solution for any project.

The inherent strength of aluminium means that inline sliding doors can accommodate a panel weight of up to 400kg and still retain sightlines as slim as 45mm. This product can be certified as PAS24, with U Values as low as 1.7 W/m<sup>2</sup>K when double glazed.

- ❖ Anti bi-metal polyamide strip to allow for varying expansion weight
- ❖ Slimmer sightline of 45mm available
- ❖ Multiple sliding configurations
- ❖ Dual or Tri rail options
- ❖ Available in single and dual colour; anodised finishes also available
- ❖ Range of hardware and security features

### CONFIGURATIONS

\*Triple Track configurations - all three panes can slide on a triple track
